

MEDIAN AUCTION RACES

This Supplement contains information pertaining to horses whose sire established one or more yearling sales at the main Public Auctions held in Europe and North America in 2023 and 2024 respectively, and which took place after June 30th of the yearling year.

The enclosed Supplement with statistics compiled by Weatherbys shows the Median Values in pounds sterling for the Stallions whose progeny are eligible for these races. Auction prices used in the calculation of the Stallion Median Auction price are inclusive of buyers' premiums, where applicable, and conversion to pounds sterling.

In the event of any query or dispute arising concerning either a horse's weight or the eligibility of a stallion's progeny, Owners and Trainers should, in the first instance, contact the Weight Adding Department at Weatherbys.

This Supplement should be retained until February 2026, for reference when entering Restricted races to establish qualification and a horse's weight.

The "specified sales" will cover the main Public Auction Sales held in Europe and North America (see below) and the stallion median prices will be those as compiled by Weatherbys, and published annually each February/March in a Supplement to The Racing Calendar. From this Supplement Owners and Trainers will be able to establish the weights which their two and three year old horses should carry in Median Auction Races. For older horses, please refer to previous Supplements or contact the Weight Adding Department at Weatherbys.

In respect of the Stallion Median Auction prices for two years old and three years old of **2025**, the "specified sales" are as follows:

Arqana (France), Auctav (France), Baden-Badener Auktionsgesellschaft (BBAG) (Germany), California Thoroughbred Breeders Association Sales (U.S.A.), The Canadian Thoroughbred Horse Society Ontario (Canada), The Canadian Thoroughbred Horse Society Manitoba (Canada), Equine Sales Thoroughbred Auction Facility of Louisiana (U.S.A.), Fasig-Tipton Co.
