

OPTIONAL CLAIMING HANDICAPS EXPLAINED

The first of 10 Optional Claiming Handicaps will be run at Yarmouth on 18 July, 2018 over six furlongs. As the name suggests, these races will be run as handicaps, but connections will be able to claim a weight allowance off the horse's handicap mark in return for the horse being claimable for an advertised claiming price. This claiming price will depend on the horse's age and rating, but will be as prescribed in the table on the reverse of this page. The table details claiming prices for horses aged 4yo and up, rated between 70 and 110. Horses are not required to be claimable, but no allowance of weight can be claimed and the horse will be required to run off its current published handicap mark.

Entries will be taken online via the Racing Admin website. After the races have closed, trainers will receive a text message asking them to confirm the claiming price of the horse by 9.30am the following day. Horses for which a claiming price is not logged with Weatherbys will be deemed to be running off their advertised handicap rating and will not be available to be claimed.

While the races will be open handicaps, it is envisaged that they will cater for horses running off a mark up to 105 and any horse rated above that will be permitted to enter, but will be required to carry the excess weight above 10st.

In order to illustrate how these races will work, a number of different scenarios are listed below.

Example 1

Horse A rated 105 is entered, but is not available to be claimed.
Horse A will run off a mark corresponding with a handicap mark of 105.

Example 2

Horse B is a 4yo, rated 105 and trainer wishes to claim the full 7lb allowance.
Horse B will run off a mark equivalent to 98 and will be claimable for £64,100.

Example 3

Horse C is a 4yo, rated 105 and trainer wishes to claim the full 7lb allowance; Horse C has won a race after the Saturday prior to closing.
Horse C will be claimable for £97,600 (equivalent to $105 - 7\text{lb} + 6\text{lb} = 104$)

Example 4

Horse D is a 4yo, rated 80 and trainer wishes to claim the full 7lb allowance.
[Last horse in the weights is running off a weight equivalent to 77]
Horse D will run off a mark equivalent to 77 and will be claimable for £14,700.

Example 5

Horse E wins an optional claiming handicap and runs in a standard handicap before his handicap rating has been reassessed.
Horse E will run off a mark equivalent to his advertised handicap rating plus the penalty applicable to that race.

Any further inquiries should be directed to the BHA's Racing Department,
email Racing@BritishHorseracing.com or 020 7152 0050.
