

2021 SIRE AND DAM WINNING DISTANCES

The following has been designed to assist owners and trainers in determining whether their horse(s) meet the dam qualification criteria for Sire and Dam restricted maiden races. It comprises a list of two years olds in training whose dams, during their racing careers, were successful over the respective distances on the Flat in Great Britain or Ireland. The list is not exhaustive as historical records for horses who raced abroad are not readily available. Should you believe your horse to be qualified but the name of its dam does not appear below please contact Weatherbys Weight Adding team who will be happy to assist.
